

QUILTING ON Q
Professional Longarm Quilting

Guide to Quilting Charges

Machine quilters charge by the size of the quilt top combined with the style of quilting required. The styles and density of the quilting are calculated at different rates.

For example, quilting a top measuring 60" x 60" with a basic edge2edge design would start at \$100.00. Density of design, cropping, ruler work or semi-custom quilting increases the price per sq. ft. from \$4.00 to \$7.00.

We supply batting at \$24.00 per metre and add a set-up charge of \$25.00 which includes the consultation and loading of thread, quilt, batting and backing.

When we receive a quilt by post, we will return the completed quilt to you FREE of CHARGE.
